Certifications:

- **Java Certified Programmer** from Jspiders, Bangalore

Mini Project:

Mobile Phone Detector Using LM358.

This Mobile Phone Detector can sense the presence of an Activated Mobile Phone from a distance of four to five metres.so it can come handy in an examination hall or meetings where mobile phones are not permitted.

The circuit can detect incoming and outgoing calls, SMSs, Internet and video transmissions even if a mobile phone is kept in silent mode. When it detects an RF signal from an activated mobile phone, its LED starts blinking and continues to blink until the signal stops.

Main Project:

Speech emotion recognition using Machine learning

As human beings' speech is amongst the most natural way to express ourselves. We depend so much on it that we recognize its importance when resorting to other communication forms like emails and text messages where we often use emoji to express the emotions associated with the messages. As emotions play a vital role in communication, the detection and analysis of the same is of vital importance in today's digital world of remote communication. Emotion detection is a challenging task because emotions are subjective. There is no common consensus on how to measure or categorize them.

Personal Information:

Date of Birth: 21st April 2001

Address: Samhita serenity, Flat 111, Mahadevapura, Bangalore

Father Name: Srinivasa Reddy

Mother Name: Venkat Ramana

Gender: male

Marital Status: Single

Languages Known: Telugu and English
